Makes sense

It might not be necessary to use Salesforce for a relatively small number of comments. For the ESA FRN, perhaps the contractor could use an excel spreadsheet to sort and categorize comments. I wouldn't think there would be a large number of different topics in which to parse comments, which is one of the things that makes Salesforce useful. (Horsley Witten put comment from reg.gov into excel or something like that before putting comments in Salesforce). But it probably would make more sense to use Salesforce for the 404(g) rule, where we'd expect more comments, and a large variety of topics and subtopics in which to sort comments.

Should we just require ICF to use sales force?

Just status of rule – key point is we are working as quickly as possible. John wanted to send some specific issues earlier; but unlikely to happen due to other priorities (i.e., retained waters as Simma, Dolores and Megan were all pulled off on other things last week.) . Working with available resources.

Regarding the issue about the contract. Still unraveling, Chris sent letter over to the other office for a quick review so we don't have John sign it and then come back and say it is not sufficient. On the contract – OW IMO has been brought in on the whole contract thing because OW has additional requirements beyond CAD requirements it seems. What a mess. Was thinking of having Chris join tomorrow's call.

Thanks. Any preview on the issue of rule schedule/workload issues?

Yes, I will get to it.

I also let the region know we need an agenda to send forward by 2 pm today for the OW update meeting. We discussed agenda – awaiting OGC scheduling of meeting with Matt L. re the NHPA issue.

I suggested that Mary or Jeanneanne take the lead for this update as:

- 1) They are briefing Mary this afternoon so she will be most up to date
- 2) I didn't think I'd get a chance to talk to John today as nothing is scheduled. We may want to consider and add to our bi-weekly with John that we either put these on the alternate week from the OW briefings or that we ensure these occur on a Monday to allow us to brief John on any issues prior to the meeting with Mary and Dave.

As for the agenda for this meeting ----

Ex. 5 Deliberative Process (DP)

- 2) Update on FL assumption – BA comments, NHPA, DOT, GPs
- 3) Updates:
 - a. Rule schedule – status and workload issues
 - b. FRN – status and timing with FDEP
 - c. OR public hearing this week – have not yet seen agenda
